

Searching for the “Right” Flood Mitigation Product

Flood Mitigation Quiz

The path to protecting your facility should start with typing "Flood Mitigation Products" into your favorite internet search engine?

TRUE

FALSE

Flood Mitigation Quiz

The path to protecting your facility should start with typing "Flood Mitigation Products" into your favorite internet search engine?

TRUE

Millions of search results

FALSE

- ❑ Many results are off topic
- ❑ Time consuming to review them all
- ❑ Not all website all claims are supported by actual testing

Flood Mitigation Roadmap

¹NFIP Technical Bulletin 3, Requirements for the Design and Certification of Dry Floodproofed Non-Residential and Mixed-Use Buildings

Flood Mitigation Roadmap

Identify the Risk

Draft a Flood Emergency Response Plan (FERP)

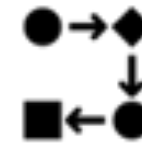

Evaluate Passive Solutions

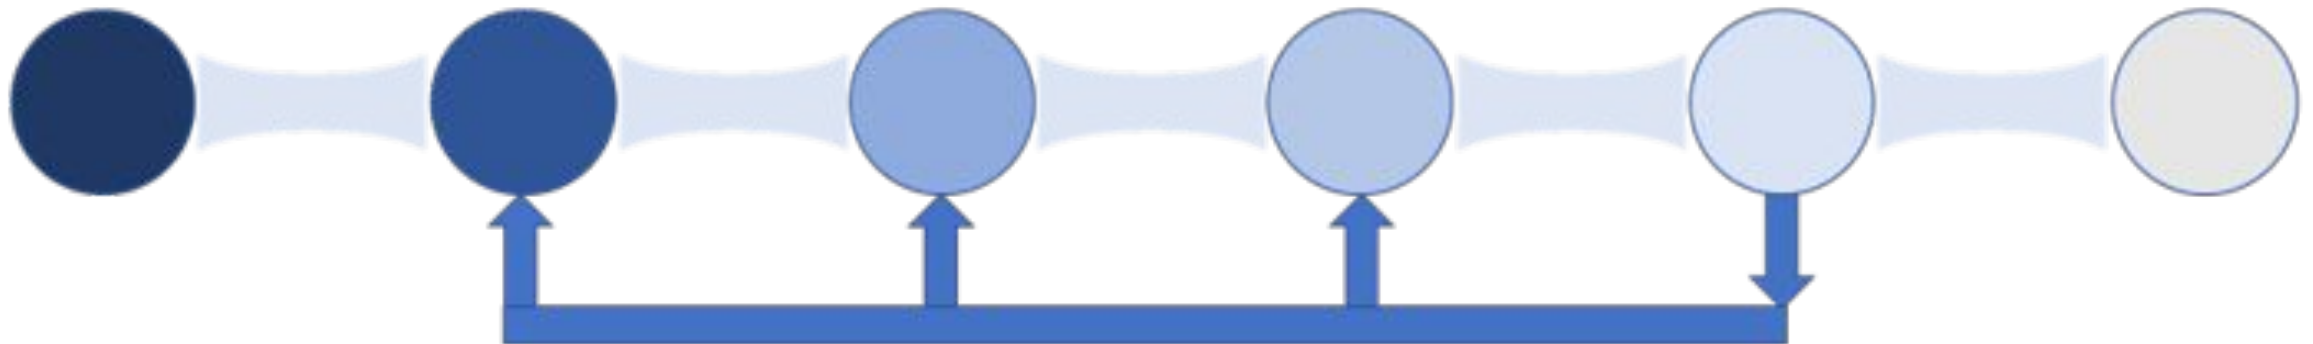

Evaluate Active Solutions

Practice Your FERP

Desired Protection Achieved

Reconsider the FERP, passive and active solutions as needed

FLOOD

Table of Contents

	Page
1.0 SCOPE	3
1.1 Hazards	3
1.2 Changes	3
2.0 LOSS PREVENTION RECOMMENDATIONS	4
2.1 Introduction	4
2.2 Construction and Location	4
2.2.1 Site Selection for New Construction	4
2.2.2 Stormwater Runoff and Terrain Management	4
2.2.3 Elevating the Entire Site	5
2.2.4 Elevating Individual Buildings and Key Equipment	6
2.2.5 Lessening Damage for New Buildings Not Built Above Flood Levels	7
2.2.6 Lessening Damage for Existing Buildings and Equipment	7
2.2.6.1 Permanent Site Flood Protection Systems	8
2.2.6.2 Complete And Partial Building Protection	9
2.2.6.3 Protection or Relocation of Equipment, Production Lines, and/or Storage	11
2.2.6.4 Temporary Perimeter Flood Protection Systems	11
2.2.6.5 Hybrid Solutions	12
2.3 Occupancy	12
2.4 Protection	12
2.5 Equipment and Processes	12
2.6 Utilities	13
2.7 Electrical	13
3.0 SUPPORT FOR RECOMMENDATIONS	14
3.1 Avoid the Zone	14
3.2 Flood Maps and Data	14
3.2.1 Levees Don't Eliminate the Threat	15
3.2.2 Site-Specific Flood Studies	16
3.2.3 Flood Protection Breach Studies	16
3.3 Strategy to Understanding the Flood Potential	16
3.4 Understanding Flood Sources and Their Characteristics	16
3.4.1 Flood Sources	17
3.4.2 Flood Characteristics	20
3.5 Understanding the Flood Impact	20
3.6 Understanding All Possible Solutions; Building or Retrofitting in a Flood Prone Area: A Strategy is Needed	21
3.6.1 Floodboard is a Key Design Consideration	22
3.7 Selecting Barriers to Protect Building Openings	22
3.7.1 Permanently Mounted Flood Gates	23
3.7.2 Flood Gates That Require Assembly	26
3.8 Temporary Perimeter Barriers Remote from Buildings	29
3.8.1 Bladders Filled with Water	29
3.8.2 Rigid/Shaped Containers Filled with Water or Sand	31
3.8.3 Flexible Containers Filled with Gravel or Sand	32
3.8.4 Deployable Flood Walls Without Foundations	32
3.8.5 Waterproof Fabric Cofferdams	33
3.9 Designed, Semi-Permanent Deployable Flood Walls	34

FLOOD RESOURCES

Flood Checklist

Get an emergency checklist of actions to take when flood is imminent. Know what to do after flooding has occurred.

[Download Checklist](#)

Flood Emergency Response Plan

Safeguard your facilities with a detailed Flood Emergency Response Plan (FERP). The plan will be your guide to preventing or minimizing water damage at your facilities, should flood ever present a threat.

[Download the FERP](#)

Understanding the Hazard (UTH)

Learn more about one of the costliest natural hazards in the world, including what's inevitable, what's preventable, and the answers to frequently asked questions.

[Download the UTH](#)

THE VALUE IMPACT OF FLOOD EVENTS

New research reveals that flood disruptions can impact shareholder value.
